- I understand that I will be enrolled in university study as a secondary school student, that fees apply, and that academic and pastoral support will be provided by my school. I understand that the University offers a fully adult learning environment and I accept any risks that may be involved in my participation in the University Extension Studies Program.
- I authorise Flinders University to release to other educational institutions details of my enrolment and academic record. I understand that Flinders University may disclose the personal information provided in this application to the Department of Education and that the Department of Education will collect and store my personal information in the Higher Education Information Management System.
- I acknowledge that topics offered through the program do not all have the same attendance and delivery modes, that some are delivered online while others are delivered in person at one of the University's campuses. I confirm I have researched the relevant topic pages to check the availability of my preferred topic/s and am confident in balancing both my Extension Studies and school commitments.
- If successful in my application, I understand that I need to complete (with my school) a SACE Form 12 and submit this to the SACE Board prior to commencing my studies on the program.
- I understand that my participation in the program will be evidenced by way of an official transcript that the University will provide to my school on the conclusion of my studies on the program. I also understand that this transcript cannot be produced until all fees relating to my participation have been paid.
- **I have checked the relevant topic handbook pages and am aware of the fees associated with the topics listed on this application.**
- I declare that, to the best of my knowledge, the information provided by me is true and complete.
- I acknowledge that the University may reverse any decision regarding the award of my position in the University Extension Studies Program on the basis that I have provided incorrect information.
- An Academic Integrity Unit is a compulsory zero credit point unit that all Extension Studies students will be enrolled in and required to successfully complete. The unit learning and assessment activities will provide guidance on what constitutes academic integrity. It will provide the opportunity to develop knowledge, skills and good practice principles to avoid plagiarism and collusion and thereby maintain academic integrity. The unit should take no longer than two to three hours to complete and must be done prior to submitting any assignments. You can read more about this at: <https://students.flinders.edu.au/my-course/academic-integrity>.

- Universities offer a fully adult learning environment and, while there are many support services, universities do not take on the same responsibilities of care that schools assume under the Teachers' Registration and Standards Act and other legislation. Universities rely upon the student's parents/guardians and school to make a judgment as to whether the student will adapt to part-time involvement in university life and for the parents/guardians to explicitly accept any risks that may be involved in participation in the University Extension Studies Program.
- **I understand that my child will be enrolled in university study as a secondary school student, that fees apply, and that academic and pastoral support will be provided by the home school. I have checked the relevant topic handbook pages and am aware of the fees associated with the topics listed on this application.**
- I understand that Flinders University may disclose the personal information provided in this application to the Department of Education and that the Department of Education will collect and store my child's personal information in the Higher Education Information Management System. I authorise Flinders University to release to other educational institutions details of my child's enrolment and academic record.
- The Broadcasting Services Amendment (on-Line Services) Act 1999 , states that "on-line accounts are not provided to children without the permission of a parent or responsible adult" and defines children as being under 18 years of age. To ensure compliance with this Act the University needs to restrict general internet access by those students who are not yet 18 years of age. Such restrictions may be lifted with the consent of a parent or a responsible adult.
- I being the parent, guardian or person responsible for the wellbeing of the student named in this application hereby give my consent for the opening of an Internet Access Account for the student's use in their university studies. I am aware that in doing so this student will have unrestricted access to the Internet through facilities and services offered by Flinders University.
- I give my approval for my child named in this application to enrol as a non-award student at Flinders University.
