
**Master of Physiotherapy
Self-assessment form**

IMPORTANT INFORMATION

Please note this form should be completed by applicants who are applying for entry to the Master of Physiotherapy (CRICOS code: 079421D) at Flinders University. This form should be completed and submitted via email (intladmissions@flinders.edu.au) within 10 days of submitting their application along with supporting documentation.

Selection is based on meeting the entry requirements and academic merit (Grade Point Average). Should there be more eligible applicants than places available for the course, applicants who meet the entry requirements will be ranked according to their best Flinders equivalent GPA achieved over a minimum of one semester of full-time equivalent study in one course, and selection will be on the basis of GPA.

Applicants who are not successful in receiving an offer will be able to be provided with feedback on how to improve their chances for selection in the future if they wish to pursue a career as a Physiotherapist.

Applicants are advised that should they receive an offer for a place in this degree they will be required to accept their offer by a deadline stated in the letter of offer. If they do not meet the deadline, their offer of a place in the degree will be forfeit. Applicants who receive an offer for a place in this degree should also note that if they subsequently receive an offer to a higher preference, their superseded offer of a place in this degree will also be forfeit.

For further information contact us via email: intladmissions@flinders.edu.au or call +61 8 8201 2727.

INSTRUCTIONS

Applicants must meet the following entry requirements to be eligible to apply:

Applicants must hold a Bachelor degree or equivalent qualification and have achieved a Flinders equivalent grade point average (GPA) of credit (5.00) or above to be considered. Applicants must also have successfully completed:

- the equivalent of 9 Flinders units (0.25 years FTE) of human physiology, including detailed exercise physiology; and
- the equivalent of 9 Flinders units (0.25 years FTE) of anatomy, including detailed musculoskeletal and neurological anatomy; and
- the equivalent of 4.5 Flinders units (0.125 years FTE) of study focused on an understanding of the human and social environment and social perspectives in health such as psychology and sociology; and
- the equivalent of 4.5 Flinders units (0.125 years FTE) study of research methods and/or evidence-based practice.

Applicants who did not achieve the minimum GPA in their completed Bachelor degree or equivalent qualification, can be considered on the GPA achieved in a graduate certificate provided they have completed a minimum one semester full-time equivalent study in this course. In addition, applicants can also be considered on the GPA achieved in a minimum of one-semester of full-time equivalent study or more undertaken in another Bachelor degree, graduate diploma or Masters degree of their choice, even if this course is not completed.

Every effort has been made to ensure the information in this brochure is accurate at the time of publication: April 2020. Flinders University reserves the right to alter any course or topic contained herein without prior notice. Alterations are reflected in the course information available on the University's website.

		/ /	/ /
		/ /	/ /

Topic pre-requisite self-assessment:

Topic Pre-requisites	List your Topic(s) (code and name) you feel meet the pre-requisites	Degree Title(s)
<p>The equivalent of 9 Flinders units (0.25 years FTE) of human physiology, including detailed exercise physiology. Topics must cover human physiology and include the functions of the major organ systems (cardiovascular, nervous, respiratory, renal, gastrointestinal, endocrine, and reproductive systems), and detailed exercise physiology (including exercise testing and prescription, adaptations to exercise, effects of exercise on cognitive and motor functioning).</p>		
<p>The equivalent of 9 Flinders units (0.25 years FTE) of anatomy, including detailed musculoskeletal and neurological anatomy. Topics must cover anatomy, and include detailed anatomy of human bones, joints, ligaments and muscles together with neuroanatomy (major neural plexuses, peripheral nerves and their area of supply to muscle groups and skin).</p>		
<p>The equivalent of 4.5 Flinders units (0.125 years FTE) of study focused on an understanding of the human and social environment and social perspectives in health such as psychology and sociology. Topics must cover broad perspectives of health and how it can be understood and influenced. This could be addressed by broad introductory psychology, sociology, or understanding health topics.</p>		

Topic Pre-requisites	List your Topic(s) (code and name) you feel meet the pre-requisites	Degree Title(s)
<p>The equivalent of 4.5 Flinders units (0.125 years FTE) study of research methods and/or evidence-based practice.</p> <p>Topics must cover introductory research methods including qualitative and quantitative approaches and/or evidence-based practice. Ideally with a social health perspective but not essential.</p>		

Self-assessment checklist:

I have or am currently completing a Bachelor degree or equivalent qualification with a Flinders equivalent GPA of 5.00 or above	<input type="checkbox"/>
I have submitted my application for entry into the Master of Physiotherapy.	<input type="checkbox"/>
I have provided my topic syllabus details for all required pre-requisite topics with this pre-requisite assessment form	<input type="checkbox"/>

Declaration:

I declare the information I have provided is true and correct. I authorise Flinders University to obtain information from other institutions regarding my previous study if required.
